REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

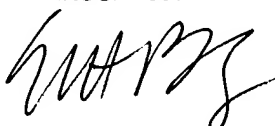

Applicant's amendment to the claims and arguments attached thereto are noted. In an effort to clarify the reasons for allowance of the currently pending claims 15-21, the Examiner notes that the prior art of record, does disclose crimped packing element sheets that have a substantially constant crimp angle in the intermediate portion of the sheets and localized crimp angle change in the vicinity of the interface between successive packing elements, the crimp angle in the vicinity of the interface being up to 90° relative to the interface. Note for example, Figs. 3 and 11 of Billingham et al, which has been previously cited and applied. The prior art of record however, fails to disclose or suggest providing crimped packing element sheets that have a substantially constant crimp angle in the intermediate portion of the sheets and a progressively varying crimp angle change in the vicinity of the interface between successive packing elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Bushey whose telephone number is (703) 308-3581.
